

Agilent Genomics eSeminar Series

Register

Register for our full series of eSeminars taking place throughout the year!

As a registered attendee, you can also view recorded versions of the event at your convenience.

Get the research knowledge you need from the comfort of your own desk. Don't miss this live online eSeminar series from Agilent!

Full Schedule All Times 11:00 a.m. ET

- Nov 11, 2010** **Agilent G3 CGH+SNP Microarrays offer genome-wide detection of deletions, duplications, and loss of heterozygosity**
Iman Kishawi, Ph.D., Field Applications Scientist, Agilent Technologies
- Nov 16, 2010** **Optimizing SureSelect Performance for Exome and Custom Re-sequencing Applications**
Josh Wang, Ph.D., Field Applications Scientist Agilent Technologies
- Nov 18, 2010** **The Agilent Gene Expression Platform: LINC-ing to the Future with Increased Density**
David Weiss, Field Applications Scientist, Agilent Technologies
Dr. Maite Huarte, Assistant Professor, CIMA Institute, University of Navarra
- Dec 2, 2010** **How to use eArray to create custom content for the SureSelect Target Enrichment Platform**
Tri Doan, Field Applications Scientist, Agilent Technologies
- Dec 7, 2010** **Finding differentially expressed genes in 1-color Agilent expression microarrays using GeneSpring**
Elise Chang, Field Applications Scientist, Agilent Technologies
- Jan 11, 2011** **Automated Next Generation Sequencing Library Prep and Target Enrichment Workflow**
Alex Wong, Field Applications Scientist, Agilent Technologies
- Jan 13, 2011** **DNA Methylation array design and analysis in Agilent Genomic Workbench**
Martin Angers, Ph.D., Field Applications Scientist, Agilent Technologies
- Jan 24, 2011** **Getting Started with SureSelect: Tips & Tricks**
Kim Troutman, Field Applications Scientist, Agilent Technologies
